Who is this for?

This is for entrepreneurial leaders of businesses with between 10 and 250 people who want more, feeling that the business is running them rather than the other way around. It might be a lack of direction, it might be the leadership team isn't right, it might be there is no growth and revenues are flat, that profit isn't enough and it might be that it feels that business has turned into juggling plates.

What will it cover?

Certified EOS Implementer, Alice Jordan, will show you how you can run a better business, executing better and growing faster and help you to:

- get the leadership team on the same page with where the business is going and how to get there;
- become more disciplined, accountable in your execution of the vision; and
- build a healthy, functional, cohesive leadership team.

Why you should attend?

- Structure your business for growth with clear roles and responsibilities.
- Define the right people for your business and determine if your people match and are in the right roles.
- Recognise and solve issues you have not been facing.
- Identify the 5-15 numbers that will tell you what is really happening in your business.
- Know how to document the core processes that will help you scale and grow.
- Save hours of time by running effective meeting pulses with your team.
- Establish the 3-7 things that must get done in the next 90 days.

ALICE JORDAN

Having spent the first 20 years of her career in senior people roles in corporate organisations, Alice developed a deep understanding of the people levers to generate productivity and how to build strong leadership teams. She also learnt about internal politics and death by power point presentations. Having always envisaged leaving that world, she took that leap in 2008. Enjoying the freedom, she set up her own business, helping leaders of businesses with between 10 and 250 employees to achieve outstanding people performance.

Alice believes that 80% of a business' challenges relate to people. Alice has been described as having an uncanny knack for entering the danger zone, getting the "unspoken" into the room with care and compassion. She believes this is a key reason why business leaders engage her to help them achieve RESULTS.
